Practice Management | EMR Software for  
Dermatology, Cosmetic Dermatology & Medical Spa

(530) 852-0306 | [www.CosmetiSuite.com](http://www.CosmetiSuite.com)

## Who we are

**CosmetiSoft + Meditab = CosmetiSuite**

At its core, CosmetiSuite is a robust, award winning CCHIT certified electronic health record. CosmetiSuite's engine is Meditab's IMS™, which has been providing outstanding EMR and practice management solutions for a wide variety of specialties since 1998. It is used successfully in offices across the nation, from single-doctor practices to multi-site clinics and hospitals.

We have leveraged CosmetiSoft's 20 years of experience with plastic surgeons and medical spas and combined that experience with Meditab to create a highly focused EHR solution for the cosmetic industry. CosmetiSuite is designed with your practice's daily work flow and patient processing requirements in mind. From creating the original appointment through check-in and check-out and creation of the visit note, virtually all of the patient's and provider's needs can be met with one integrated system. And CosmetiSuite enhances the process for cosmetic practices by integrating additional key features.

## Features for Dermatology

### **Quick documentation with Dermatology-specific Templates**

Documenting conditions and symptoms is faster and more accurate using intuitive templates. Templates come pre-loaded, ready to use, and can be customized easily by the physician, even on the fly.

### **Auto Check-In**

Auto Check-In Kiosk feature lets the patients Check-In on their own. This feature reduces workload and helps in managing a high patient flow.

### **E-Prescribing and Prescriptions**

The flexible and comprehensive prescription module tracks medications and refill history. Improve patient care with drug education integration, dosing, allergy and drug interaction, and contra indication checks.

### **Authorization / Referral Tracking**

Reduce missing authorizations and claim rejections with authorization checking at Check-In and Charge Posting. Authorization requirements can be set by procedure and insurance criteria.

### **Referral Management**

Improve patient health by managing all relevant information, and tasks, for both inbound & outbound referrals.

### **Care Portal**

Care Portal helps patients get involved in their healthcare by providing online access to their provider & clinical data, such as: diagnoses, allergies, prescriptions, educational materials, care plans, health maintenance schedules, appointments, billing information and much more.

### **Document & Image Management**

Condense and organize files into a user-friendly, easily accessible digital document file cabinet. Organize documents with customized folder tabs, the integrated fax management module allows you to fax from the system, scan in documents, images, driver licenses, insurance cards, and more.

### **Lab Ordering, Reviewing and Tracking**

Supports HL7 interface so you can send or receive diagnostic lab orders electronically. Customized test templates and pre-printed order forms. Pre-import checking. Comparative and graphical representation of lab data saving physicians' time.

## Flexible Scheduler with Outlook View

CosmetiSuite provides a modern Outlook-style view to your schedules. View multiple providers and rooms side by side, with the ability to create custom views that are tailored to your needs. Easily schedule multiple appointments with multiple providers for one visit, or schedule a provider and a room as required, for instance, for surgery or minor treatment which includes a special piece of equipment, such as a laser.

## Photo Management

Import unlimited images from standard digital cameras, tag and organize with information that will allow you search and query over the entire patient population. See up to 24 photos at a time per patient with search, print and export options. Easily move images into visit notes, with annotations to enhance visit documentation.

## POS with Inventory Control / Med Spa

CosmetiSuite provides a Point of Sale system that makes sales and inventory control of skin care products and treatments a snap. Product selection and sale is made very user friendly with the ability to use a bar code scanner or by selection of items from a simple drop down list, organized as "top sellers", by manufacturer, or in any way you desire. Payment options include automated credit card processing. Other advantages include the ability to sell and manage Gift Certificates, debit patient accounts from treatment rooms for front-desk payment processing, or any other method that your practice might employ.

## IMS EHR Feature Set Included

- » Simplify patient visits with dermatology-specific templates for faster, more comprehensive documentation, storage, and retrieval of detailed patient data.
- » Enhance workflow with a paperless office. Gain better communications, greater efficiency, and deliver better patient care.
- » Aesthetic & Med Spa visit documentation and tracking.
- » Improve overall revenue with accelerated reimbursement, automatic coding recommendations, decreased denials, and increased patient flow.
- » Built-in reporting tools scrutinize your practice's patterns for pay-for-performance, meaningful use requirements, quality measurements, and business analysis.
- » Access patient information at the point of care, no more chart-pulls, and no more misplaced records.
- » Eliminate redundant paperwork, enable patients to complete forms with integrated patient portal, and in-office kiosk.
- » Achieve interoperability and connectivity with other health care entities, pharmacies and labs for referrals, orders, and receipt of results.
- » Automate prescription writing, drug interaction and formulary checking with automatic alerts, and a fully-integrated drug database.
- » Easily deliver patient education materials for dermatology-specific tests, procedures, and disease management.
- » Merge Letter system for mail, email or fax
- » Form Filler to auto-fill pre-printed forms, with signature collection built-in
- » Electronic Fax system inbuilt to handle all incoming and outgoing faxes and link directly to patient records
- » Bi-directional interface with the most common lab corporations
- » eRx capability, and Meaningful Use integration
- » Integrated Reminder system to remind patients of upcoming appointments, with optional Text messaging & Email
- » Totally integrated with our CCHIT and ONC-ATCB certified Ambulatory EHR

# Why CosmetiSuite

- » Works the way you do now
- » Improve quality of care
- » Easy adoption and use
- » Decrease labor-intensive chart pulls and re-files
- » Quickly access comprehensive patient information
- » Communicate key information better and with more accuracy
- » Improve and track overall progress of care
- » Lower overall costs and better manage risk
- » Share integrated information quickly and securely
- » Deliver care summaries & other information required by Meaningful Use
- » Live Support Online / Telephone
- » Scalable to fit practices of all sizes

## Real Return:

- » See more patients
- » Eliminate transcription costs
- » Eliminate office expenses related to chart creation and paper document printing
- » Qualify to receive HITECH incentive payments

## Certified to Meet Meaningful Use

IMS, v.14.0 is ONC-ATCB certified as a Complete EHR. IMS, v. 14.0 is also certified in CCHIT 's separate and independent program and is a CCHIT Certified® 2011 Ambulatory EHR.

## Easily Become a Meaningful User

IMS features a unique Meaningful Use Dashboard that quickly identifies meaningful use deficiencies. Review clinical data with graphical charts identifying patients not meeting clinical measures quickly and easily. Tasks, reminders, alerts and letters can be generated to improve meaningful use status.
